

FITCHBURG COMMUTER RAIL LINE IMPROVEMENT PROJECT UPDATE

Construction Advisory

Road Closure – Detours in effect- expect delays

Elm Street Waltham, MA

Grade Crossing Replacement

Weekend of November 1st and 2nd

Closure from approximately 1am Saturday to 8pm Sunday

On Saturday November 1st, 2014 at approximately 1am Keolis construction personnel will commence the reconstruction of the grade crossing at Elm Street in Waltham, MA. At this time the crossing will be closed to vehicular traffic through Sunday evening, November 2nd, until approximately 8pm.

Police details will be in place to mitigate any traffic issues. Access to local area residents and businesses will be maintained throughout construction by detour.

The grade crossing will be closed throughout the weekend as construction crews remove and replace the existing track structures at this location, and upgrade signal systems and utilities as needed.

Paving operations are anticipated to be completed Sunday evening by 8PM and the road reopened for use by the public. Variable message boards are on site to alert motorists and neighbors of this weekend closure.

In order to support construction efforts, ALL MBTA Fitchburg Line Commuter Rail weekend service has been suspended through November 16th 2014. For more information on the weekend service suspension please go to www.MBTA.com

We apologize for any inconvenience this work and may cause. It is critical that these major construction efforts be undertaken over weekends and some nights when the track is taken out of service. These improvements are essential to the rehabilitation of the Fitchburg Line. Customers can look forward to significant service improvements when this project is completed.

If you have any questions about the project please contact us by email at MBTA Fitchburg Project Email FitchburgProject@MBTA.com or by phone at MBTA Fitchburg Project Hotline 617-721-7506
