MAYOR'S OFFICE

Official Resolution

Whereas; the Waltham City Council, the Mayor, Waltham School Committee and Waltham School Building Committee have been exploring numerous locations with regard to a new high school and,

Whereas, former City Councillor James Regan has introduced to the City Council ample area located on the Storer Estate land for the new high school to be built while keeping the Paine Estate as it is now and in the future there could be access to the old property without disruption to the students, teachers, or the administration, and

Whereas, the City Council wants to work in a cooperative fashion with all parties involved of determining the future location of a new high school,

Now therefore be it resolved that the City Council ask the Mayor, School Committee and School Building Committee to explore the feasibility and possibility for the Storer Estate property to be used as a future site of the new high school. And be sent to the Conservation Commission

Respectfully submitted,

Paul J. Brasco
