CITY OF WALTHAM  
CITY CLERK'S OFFICE

2017 JUN 22 A 11:43

RECORDED

June 22, 2017

TO: The City Council  
RE: Section 17-25 Request – 740-750 Moody Street

Dear Councillors:

The Water/Sewer Division has investigated and determined that the sewer service lateral at 740-750 Moody Street is broken in the public section of the sewer lateral. As a result there have been frequent sewer backups at the location requiring multiple responses from the Water/Sewer Division and also rendering a restroom at the location unusable.

During 2016, Moody Street was paved and while the five year moratorium is still in effect, I respectfully request that the selected contractor, D'Allesandro Corporation, be permitted to excavate the roadway and perform the necessary work to fix the damaged sewer line. The sewer lateral to be repaired will remain in the same trench. The repair work and subsequent resurfacing will be performed in accordance with Section 17-25 of the General Ordinances.

Attached is a copy of a memo that was received from the City Engineer. Mr. Casazza will be available to answer questions concerning this request.

Sincerely,

Jeannette A. McCarthy

JAM/ccb

Enclosure

City Engineer

**MEMORANDUM**

To: Jeannette A. McCarthy, Mayor

From: Stephen A. Casazza, P.E., and City Engineer SAC

Date: June 13, 2017

Re: Request for Permission to Excavate – 740-750 Moody Street

Copy: Paul Centofanti, City Auditor  
Ginny Bergin, Assistant City Auditor

---

The Water-Sewer Department has investigated and determined that the sewer service lateral at 740-750 Moody Street is broken in the public portion of the sewer line. This breach in the pipe is causing frequent sewer backups at the location requiring several Water-Sewer Department responses, and has rendered a restroom there unusable.

Moody Street was paved in 2016, and is therefore under the 5-year excavation moratorium. I request that the contractor that has provided a quote for this project, D'Allessandro Corp., be permitted to excavate the roadway and perform the necessary work to fix this damaged sewer line. All repair work and resurfacing will be performed under the provisions of Section 17-25, Article #33465, amended 6-13-2016. The lateral will remain in the same trench as the original pipe.

I am available to answer any questions regarding this request.
