

MAXIMIZE YOUR SAFETY WITH CodeRED

“TEXT Waltham to 99411”

The City of Waltham would like to announce a new form of enrollment for our emergency notification system, TEXT to Enroll. Text to Enroll will bring you to the registration page which is now active and will give you the opportunity to register from your phone or tablet. People wishing to enroll can Text “Waltham to 99411” and you will automatically be brought to the registration page where you can enroll. When registering, we encourage you to register for emergency messages as most of our Code Red messages are emergency in nature and we want to make sure you receive time sensitive alerts immediately.

Additionally we would like to announce that we are now going to be using a “Foreign Language Message Translation” which will automatically translate messages into a language a person can register to receive. The three languages are: Spanish, Portuguese (Brazil) and French (Canada). Residents will need to select their language at the time of enrollment. We will continue to work with Code Red to monitor other types that may become available and beneficial to our citizens.

In order to be given the option of which language you would like to receive your messages in you must sign up now, and if you are already signed up you will have to re-sign up. You will not receive duplicate calls by doing this.

Don't wait! Start receiving notifications that could save your life. Sign up today!

Text Waltham to 99411 to enroll, or download the CodeRED Mobile Alert app available in the App Store or Google Play.
