Message from the Health Department

Governor Baker recently announced the phased rollout for the COVID-19 vaccine. The vaccine will be rolled out in four Phases. Information on this phased approach can be found at:

The Waltham Health Department will have additional information for residents in the coming months. That information will be updated on the City website, City social media, local press, and other means of communication. If you have questions about what phase you may fall in you can also contact your physician for guidance.

Thank you for your continued cooperation.
