ITEM 1: CLARIFICATION:

Question:

The specs refer to "permanent paving". Will the contractor be required to carry the cost to return and remove temporary mix and repave with permanent pavement for the sidewalk & driveways?

ANSWER:

If the contractor only wants to patch the sidewalk and driveways once, that is acceptable; however the contractor is still on the hook for the warranty period, and if the patches settle significantly, they would be responsible to maintain and repair as needed.
