ITEM NO.: 1 **ANSWERS TO POSED QUESTION**

Q1. As I understand the iron rails are cemented and fastened to the building. We can paint the windows leaving the iron rails in place. However, if it is necessary to remove these rails we have major concerns in regards to the safety when put back in place.

A1. The City will accepts keeping the iron rails in place with the condition that the work will be completed according to specification without any sacrifice to the quality of the work or the completion schedule. The iron railings, however, will be primed and painted black as specified.
