**ITEM 1: ANSWERS TO POSED QUESTIONS**

**Q1.** Does the City have a preference for unground niche area or an above ground Columbarium (niche area)?

**A2.** We would like to incorporate a niche wall if possible in the design, so it is protected. The number of units would depend on the topography. There are portions for family niches 4 or possibly 6 spaces in one as well as single and double units. You can also plot areas for future self-standing units. Plant flowers there now for development later.

**Q2.** How many niches is the City planning?

**A2.** See above answer

**Q3.** Will an ASTM phase I satisfy the 21E Environmental Evaluation criteria?

**A3.** The testing and evaluation needs to be able to satisfy federal, state and local requirements.

**Q4.** Is there an anticipated budget for this project?

**A4.** Yes, the City however does not make this information public
