Letter of Transmittal

January 29, 2015

To the Honorable Mayor, Members of the City Council and Citizens of the City of Waltham, Massachusetts:

At the close of each fiscal year, state law requires the City of Waltham to publish a complete set of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP), and that are audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the Comprehensive Annual Financial Report (CAFR) of the City of Waltham, Massachusetts, for the fiscal year ended June 30, 2014 for your review.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements for the fiscal year ended June 30, 2014 are fairly presented in conformity with GAAP.

The City of Waltham's financial statements have been audited by CliftonLarsonAllen, LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2014, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the fiscal year ended June 30, 2014 are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City of Waltham's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of the Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement that analysis and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

Profile of the City

Settled in 1630 and incorporated as a Town in 1738, Waltham was chartered as a City in 1884. Located in Middlesex County, 9 miles west of Boston, the City is bordered by the Towns of Belmont, Lexington, Lincoln, Newton, Watertown and Weston. The City encompasses approximately 12.7 square miles and, according to the 2010 federal census, has a population of 60,632.

Subject to local legislative decisions made by a fifteen (15) member City Council elected for two-year terms, the affairs of the City are generally administered by a Mayor, who is elected for a four-year term on an at-large basis. As chief executive officer, the Mayor appoints, subject to approval by the City Council, all the other principal executive officers of the City other than the City Clerk. The Mayor is responsible for the administration of the fiscal and other affairs of the City with the exception of local school affairs which are administered by the School Committee.

The City Council annually elects its own President, who presides over all Council meetings and appoints all standing committees of the Council. Actions of the Council are generally subject to veto by the Mayor, but such action may be overridden by a two-thirds vote of the Council members.

The School Committee, whose members are elected for four-year terms, has exclusive jurisdiction over the City's public school system and appoints a Superintendent to administer the day-to-day affairs of the system.

The City provides general governmental services for the territory within its boundaries, including police and fire protection, curbside collection and disposal of trash and recyclable materials, public education in grades kindergarten through twelve, water and sewer services, street maintenance, parks and recreation. The Massachusetts Bay Transportation Authority provides bus coverage throughout the City with connections to the metropolitan Boston area as well as commuter rail service between the City and Boston. The Massachusetts Water Resources Authority provides water and sewerage disposal services to the City. The Waltham Housing Authority, a separate legal entity, provides public housing for eligible low income families, the elderly and the handicapped.

Within 170 days after the annual organization of the City government (which is ordinarily in early January), the Mayor is required to submit a budget of proposed expenditures for the fiscal year beginning on the next July 1. The City Council may make appropriations for the recommended purposes and may reduce or reject any item. Without a recommendation of the Mayor, the Council may not make any appropriation for a purpose not included in the proposed budget, except by a two-thirds vote in the case of the failure of the Mayor to recommend an appropriation for such a purpose within 7 days after a request from the Council. The Council may not increase any item without the recommendation of the Mayor (except as provided by legislation, recommendation of the school committee or regional district school committee and by two-thirds vote of the Council, provided that such increase does not cause the total annual budget to exceed the property tax limitations). If the Council fails to act on any item of the proposed budget within 45 days, that item takes effect.

If the Mayor does not make a timely budget submission, provision is made for preparation of a budget by the Council. Provision is also made for supplementary appropriations upon recommendation of the Mayor. Water and sewer department expenditures are included in the budgets adopted by City Council.

The City manages its risk through a combination of self-insured programs and premium based coverage with commercial insurance carriers. Health care and workers compensation are self-insured plans. The City is exposed to various risks of loss related to general liability, property and casualty, workers' compensation and unemployment compensation claims. Buildings and property are insured against fire, theft and natural disaster to the extent that losses exceed the City's deductible per incident. These deductibles vary by type of incident, none of which exceed \$25,000.

Factors Affecting Economic Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Waltham operates.

The City is a mature industrial-residential community with significant industrial activity, a good part of which is in the communications, technology and financial services fields, concentrated along Interstate 95 (Route 128). Retail trade is concentrated in the City's downtown central business district. Several nationally known companies have chosen to locate in the City. In addition to its commercial base, the City is home to both Bentley University and Brandeis University.

The City continues to manage its financial affairs in a prudent, fiscally responsible manner as is demonstrated by its excellent Moody's bond rating of Aa1 and Standard & Poor's bond rating of AA+, even with the limitations of state aid funds from the Commonwealth of Massachusetts and the current overall economy. The City's financial actions are generally guided by long range planning tools such as a five-year Capital Improvement Program; prioritizing spending plans and identifying discretionary spending; pay-as-you go financing strategies; long-term planning for all liabilities including pension and insurance reserves and municipal best practices, which are reviewed annually at the beginning of each budget development cycle. Additionally the City has enhanced its revenue flexibility by establishing enterprise funds and many other user supported programs. This has allowed the City to shift the operating costs of certain services to the users so that little or no tax support subsidizes these services.

The City maintains a strong industrial and commercial tax base. In fiscal year 2014, the combined assessed value of these properties represented 33.7% of the total City value. The residential values demonstrate the desirability of the City. The City's proximity to Boston and major highways, its quality of life, and dedication to public education underlies the community's popular reputation.

Quarterly tax billings and excellent collection rates have eliminated the need to borrow on a short term basis to maintain operating cash flow. The City's investment options are governed by Massachusetts General Laws and focus on safety, liquidity and yield.

At the State level, the economic outlook for the Commonwealth has been slightly improving. It is anticipated that state aid will see modest increases in the following years. Optimistically, this will place the City in a position of having a lesser degree of reliance on property taxes to cover the increasing cost of providing services.

The City is currently managing approximately \$98.4 million in long and short-term debt. The long-term indebtedness consists of \$94.9 million of general obligation bonds; of which \$22.5 million is self-supporting through enterprise fund revenues and \$3.5 million of bond anticipation notes are expected to be renewed in June 2015. Under the school building assistance program, the City was eligible for a state grant representing 90% reimbursement of approved costs incurred in the building of eight new school facilities. The City received \$124.8 million of such assistance based on reimbursement of eligible construction costs. \$24.7 million was received in fiscal year 2005, \$44.4 million in fiscal year 2006, \$29.8 million in fiscal year 2007, \$24.6 million in fiscal year 2008 and the final payment of \$1.3 million was received in fiscal year 2010. The City has outstanding bonds that provided the remainder of the cost.

The City has authorized and unissued debt for school facilities, water/sewer infrastructure improvements, departmental equipment, land acquisition/development and other various projects totaling \$19.6 million as of June 30, 2014. The authorized and unissued debt includes \$8.0 million for water/sewer infrastructure improvements.

The City of Waltham contributes to the Waltham Contributory Retirement System (the System), a cost sharing, defined benefit pension plan administered by the Waltham Contributory Retirement Board (Board). Each year, an independent actuary engaged by the Board calculates the amount of the annual contribution that the City of Waltham must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As required by law, the City of Waltham fully funds each year's annual required contribution to the pension plan as determined by the actuary. As of January 1, 2013, the latest actuarial valuation date, the System had succeeded in funding 51% of the present value of the projected benefits earned by employees. The remaining unfunded amount is being systematically funded over the remaining 22 years (as of January 1, 2013) as part of the annual required contribution as calculated by the actuary.

The City of Waltham also provides post retirement healthcare benefits for certain retirees and their dependents. Currently, there are 1,225 retired employees receiving these benefits, which are financed on a pay-as-you-go basis. GAAP now requires the City to conduct an actuarial valuation to determine the unfunded liability and to recognize the annual cost of reducing this liability in addition to the current year benefits. The City completed this actuarial valuation effective June 30, 2014, with a reported liability of \$601 million. If the City is unable to fund the minimum annual contribution as determined by the actuarial valuation, the unpaid amount will be required to be recorded as a liability on the financial statements of the City. The City established and maintains an OPEB Trust Fund (not considered a trust for GASB reporting purposes) with a balance of approximately \$8.4 million as of June 30, 2014.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2013. This was the tenth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City had to publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

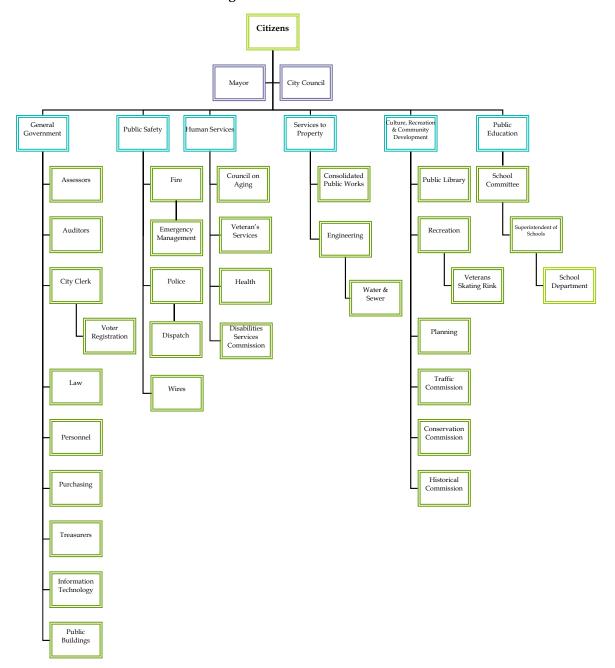

The preparation of this report would not have been possible without the dedication and commitment to excellence of the staff of the Auditing Department. We would like to express our appreciation to the members of all the departments who assisted and contributed to the preparation of this report. We would also like to acknowledge and give credit to the Mayor and the City Council for their consistent support to uphold the highest standards of professionalism in the management of the City of Waltham's finances.

Respectfully submitted,

Paul G. Centofanti City Auditor

Independent Auditors' Report

To the Honorable City Council and Mayor City of Waltham, Massachusetts

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Waltham, Massachusetts, as of and for the year ended June 30, 2014 (except for the Waltham Contributory Retirement System, which is as of and for the fiscal year ended December 31, 2013), and the related notes to the financial statements, which collectively comprise the City of Waltham, Massachusetts' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Waltham, Massachusetts, as of June 30, 2014 (except for the Waltham Contributory Retirement System, which is as of and for the fiscal year ended December 31, 2013), and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (located on pages 14 through 24) and general fund and community preservation fund budgetary comparisons and certain pension and other postemployment benefits information (located on pages 76 through 95) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Waltham, Massachusetts' basic financial statements. The introductory section, combining statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 29, 2015, on our consideration of the City of Waltham, Massachusetts' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Waltham, Massachusetts' internal control over financial reporting and compliance.

As management of the City of Waltham, Massachusetts (City), we offer readers of these financial statements this narrative overview and analysis of the City's financial activities for the fiscal year ended June 30, 2014.

Financial Highlights

- ➤ The assets of the City exceeded its liabilities at the close of the most recent fiscal year by \$187,009,805 (net position). The City's governmental activities had negative unrestricted net position totaling (\$67,714,757) and \$27,383,479 in unrestricted net position for its business-type activities.
- ➤ The City's total net position decreased \$8,237,208.
- As of the close the fiscal year, the City's governmental funds reported combined ending fund balances totaling \$87,628,353, an increase of \$4,061,214 in comparison with the prior year. \$33,612,147 represents unassigned fund balance.
- At the end of the fiscal year, unassigned fund balance for the general fund totaled \$34,984,665, or 16.6 percent of total general fund expenditures and transfers out.
- > The City's total bonded debt decreased by \$5,322,721 (5.6%) during the fiscal year; \$5,082,218 of new debt was issued.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the *basic financial statements*, which consists of the following three components:

- 1. Government-wide financial statements
- 2. Fund financial statements
- 3. Notes to the basic financial statements.

This report also contains required supplementary and other information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The **statement of net position** presents information on all of the City's non-fiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The **statement of activities** presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, earned but unused vacation leave, etc.).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*).

Governmental activities include general government, public safety, education, public works, health and human services, culture and recreation, community development and debt service (interest). Business-type activities include the sewer, water and Veterans Memorial Rink operations.

The government-wide financial statements can be found on pages 26-28 of this report.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds can be divided into the following categories and are described below:

- 1. Governmental funds
- 2. Proprietary funds
- 3. Fiduciary funds

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term effect of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 24 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general, highway projects (capital project), community development block grant (special revenue), community preservation (special revenue) and city capital projects (capital project) funds, each of which are considered to be major funds. Data from the other 19 governmental funds are combined into a single, aggregated presentation titled *nonmajor governmental funds*. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements on pages 99-106 of this report.

The basic governmental funds financial statements can be found on pages 29-35 of this report.

Proprietary funds

The City maintains two types of proprietary funds.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its sewer, water and Veterans Memorial Rink operations, for which sewer and water are considered to be major funds.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses an internal service fund to account for employee health insurance activities.

Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements but are combined into a single, aggregated presentation in the proprietary funds financial statements.

The basic proprietary funds financial statements can be found on pages 36-38 of this report.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's programs. The accounting used for fiduciary funds is similar to that used for proprietary funds.

The fiduciary funds provide separate information for the City's pension trust fund. Private-purpose trust funds and agency funds are reported and combined into a single, aggregate presentation in the fiduciary fund financial statements under the captions "private purpose trust funds" and "agency funds", respectively. Individual fund data for private-purpose trust funds and agency funds are provided in the form of combining statements on pages 109-110 and page 112 of this report.

The basic fiduciary funds financial statements can be found on pages 39-40 of this report.

Notes to the basic financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 41-75 of this report.

Required Supplementary and Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information regarding the budget comparison for the general fund and community preservation fund and certain pension and other postemployment benefits information. Such information can be located on pages 77-95 of this report, respectively.

The combining statements previously referred to are presented immediately following the required supplementary information.

Government-Wide Financial Analysis

The following tables present current and prior year data on the government-wide financial statements.

Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. The City's assets exceeded liabilities by \$187,009,805 at the close of the fiscal year and are summarized as follows:

| | Governmental Activities | | Business-Type | Activities | Total | | |
|--|-------------------------|----------------|---------------|---------------|----------------|--------------|--|
| | 2014 | 2013 | 2014 | 2013 | 2014 | 2013 | |
| Assets | | | | | | | |
| Current assets\$ | 114,062,580 \$ | 108,317,750 \$ | 36,254,430 \$ | 34,471,525 \$ | 150,317,010 \$ | 142,789,275 | |
| Noncurrent assets (excluding | | | | | | | |
| capital assets) | 2,756,718 | 2,941,176 | - | - | 2,756,718 | 2,941,176 | |
| Capital assets (net) | 236,604,415 | 237,442,079 | 27,493,298 | 27,046,788 | 264,097,713 | 264,488,867 | |
| Total assets | 353,423,713 | 348,701,005 | 63,747,728 | 61,518,313 | 417,171,441 | 410,219,318 | |
| Liabilities and Deferred Inflows of Resources | | | | | | | |
| Current liabilities | | | | | | | |
| (excluding debt) | 20,198,312 | 17,662,459 | 656,892 | 1,028,005 | 20,855,204 | 18,690,464 | |

| Current debt | 11,261,507 | 11,372,407 | 2,190,908 | 2,434,445 | 13,452,415 | 13,806,852 | |
| Noncurrent debt | 66,032,615 | 69,226,362 | 20,991,349 | 22,932,147 | 87,023,964 | 92,158,509 | |
| Deferred inflows of resources | 122,733 | - | - | - | 122,733 | - | |
| Total liabilities and deferred | | | | | | | |
| inflows of resources | 204,280,220 | 186,805,443 | 25,881,416 | 28,166,862 | 230,161,636 | 214,972,305 | |
| Net Position | | | | | | | |
| Net investment in capital assets | 164,015,843 | 165,312,712 | 10,482,833 | 9,399,319 | 174,498,676 | 174,712,031 | |
| Restricted | 52,842,407 | 46,282,436 | - | - | 52,842,407 | 46,282,436 | |
| Unrestricted | (67,714,757) | (49,699,586) | 27,383,479 | 23,952,132 | (40,331,278) | (25,747,454) | |
| Total net position\$ | 149,143,493 \$ | 161,895,562 \$ | 37,866,312 \$ | 33,351,451 \$ | 187,009,805 \$ | 195,247,013 | |

The largest portion of the City's net position in the amount of \$174,498,676 reflects its net investment in capital assets (e.g., land, construction in progress, land improvements, buildings and improvements, equipment, infrastructure and library books); less any related outstanding debt used to acquire those assets. These capital assets are used to provide services to citizens; consequently, these assets are not available for future spending. Although the investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position in the amount of \$52,842,407 represents resources that are subject to external restrictions on how they may be used.

Unrestricted net position of \$27,383,479 may be used to support business-type activities. The City has no unrestricted net position available for the support of governmental activities. Such resources have been consumed with the recognition of other post employment benefits liabilities.

Changes in Net Position

For the fiscal year ended June 30, 2014, the City's total net position decreased by \$8,237,208, compared to a decrease of \$5,301,297 in the prior fiscal year. These amounts are summarized as follows:

| | Governmental Activities | | Business-Type | Activities | Total | | |
|---|-------------------------|----------------|---------------|---------------|----------------|-------------|--|
| | 2014 | 2013 | 2014 | 2013 | 2014 | 2013 | |
| Revenues | | | | | | | |

Governmental activities decreased the City's net position by \$12,752,069. In the prior year, governmental activities decreased the City's net position by \$10,560,624. The key elements of this change are as follows:

- ➤ Decrease in capital grants and contributions of approximately \$865,000.
- Accrual of unused police compensatory time of approximately \$988,000.

Business-type activities increased the City's net position by \$4,514,861. In the prior year, business-type activities increased the City's net position by \$5,259,327.

Fund Financial Statement Analysis

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the governmental funds reported combined ending fund balances totaling \$87,628,353, an increase of \$4,061,214 in comparison with the prior year. \$33,612,147 represents unassigned fund balance. The remainder of fund balance includes the following constraints:

- Nonspendable \$2,150,692
- Restricted \$45,994,460
- Committed \$1,492,937
- Assigned \$4,378,117

The general fund is the primary operating fund of the City. At the end of the current fiscal year, the general fund's unassigned fund balance totaled \$34,984,665, while total fund balance was \$49,207,641. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures and transfers out. Unassigned fund balance represents 16.6% of total general fund expenditures and transfers out, while total fund balance represents 23.3% of that same amount.

The balance of the City's general fund increased \$5,396,863 during fiscal year 2014. The City recognized a budgetary surplus of \$15,187,206 (excluding encumbrances and continuing appropriations), and utilized reserves of approximately \$11,100,000 to fund fiscal year 2014 operations.

Financial highlights of the City's other major governmental funds are as follows:

The fund balance of the highway projects fund (capital project) decreased \$670,665 during the current fiscal year. The fund recognized \$488,393 of intergovernmental revenues and incurred \$1,159,058 of expenditures.

The fund balance of the community development block grant fund (special revenue) decreased \$28,243 during the current fiscal year. The fund recognized \$624,018 of intergovernmental revenues, \$111,280 of departmental and other revenues and \$40 of investment income. Expenditures incurred totaled \$763,581.

The fund balance of the community preservation fund (special revenue) increased \$1,280,524 during the current fiscal year. The fund recognized \$2,534,651 of community preservation surcharges, \$5,157 of penalties and interest on taxes and \$41,507 of investment income. Expenditures incurred totaled \$1,300,791.

The fund balance of the city capital projects fund (capital project) decreased \$2,935,662 during the current fiscal year. The fund recognized \$4,232,760 of proceeds of bonds and notes. Expenditures incurred totaled \$7,168,422.

Proprietary funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the sewer, water and Veterans Memorial Rink enterprise funds at the end of the year amounted to \$11,697,648, \$15,633,391 and \$52,440, respectively. The sewer and water enterprise funds had increases in net position for the year of \$1,913,564 and \$2,624,742, respectively. The Veterans Memorial Rink enterprise fund had a decrease in net position for the year of \$23,445. Other factors concerning the finances of the fund have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

The original general fund budget of \$195,218,498 was increased by \$4,624,282 (2.4%) during the fiscal year. The following table summarizes the increase:

| Purpose of Increase | Amount | Funding Source |
|--|-----------|-------------------------|
| At. : | F 001 | Cultilization for I |
| Auto insurance\$ | 5,921 | Stabilization fund |
| Environmental services | 13,000 | Stabilization fund |
| Land appraisal | 5,000 | Stabilization fund |
| Printing and contract labor | 68,451 | Unassigned fund balance |
| Law salaries part-time | 4,500 | Unassigned fund balance |
| Workers' compensation - medical | 150,000 | Unassigned fund balance |
| Snow overtime, trucks, salt and sand | 1,185,000 | Unassigned fund balance |
| Library | 35,000 | State grant |
| Snow overtime, trucks, salt and sand | 500,000 | Unassigned fund balance |
| Parks and improvements | 23,900 | Unassigned fund balance |
| Culvert repair | 165,000 | Unassigned fund balance |
| Land acquisition - Fernald | 100,000 | Unassigned fund balance |
| Workers' compensation - medical | 35,000 | Unassigned fund balance |
| Pond End Tot lot playground | 200,000 | Unassigned fund balance |
| School Department - salaries | 1,283,760 | Unassigned fund balance |
| School Department, City Council and Cemetery | 818,750 | Unassigned fund balance |
| Dispatchers - salaries | 31,000 | Unassigned fund balance |
| - | | |
| Total increase\$ | 4,624,282 | |

During the year, general fund revenues and other financing sources exceeded budgetary estimates, and expenditures, encumbrances and continuing appropriations were less than appropriations, resulting in a positive overall budget to actual variance of approximately \$9,633,000.

Capital Asset and Debt Administration

Capital assets

The City's investment in capital assets for its governmental and business type activities at the end of the fiscal year totaled \$264,097,713 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings and improvements, equipment, infrastructure and library books. The total decrease in the investment in capital assets for the current fiscal year totaled 0.1%.

Major capital asset events that occurred during the current fiscal year include the following:

- ➤ Banks school (\$2,658,241)
- ➤ Sewer infrastructure (\$1,120,164)
- > Fire engines (\$1,102,228)
- Falzone, Nipper Maher land improvements (\$949,964)
- > School computer equipment (\$681,600)
- ➤ Trapelo Rd/Forest St Intersection Improvements (\$578,356)
- ➤ Met State parking lot land improvements (\$440,454)
- ➤ Water infrastructure (\$350,726)
- ➤ Main Street and River Street repairs (\$335,945)
- ➤ Bright School Vault & Archival Space (\$289,535)
- ➤ Waltham High School air conditioning system (\$239,000)
- ➤ Police station design/construction (\$238,468)
- Calvary Street paving (\$205,771)

The following table summarizes the City's capital assets (net of accumulated depreciation):

| | Governmental Activities | | Business-Type 2 | Activities | Total | | |
|----------------------------|-------------------------|----------------|-----------------|---------------|----------------|-------------|--|
| _ | 2014 | 2013 | 2014 | 2013 | 2014 | 2013 | |
| Land\$ | 20,273,587 \$ | 20,096,087 \$ | 38,550 \$ | 38,550 \$ | 20,312,137 \$ | 20,134,637 | |
| Land improvements | 12,374,920 | 11,693,001 | - | - | 12,374,920 | 11,693,001 | |
| Buildings and improvements | 171,375,117 | 173,599,326 | 1,787,749 | 1,889,581 | 173,162,866 | 175,488,907 | |

| Infrastructure | 23,564,913 | 24,802,920 | 24,731,806 | 24,257,978 | 48,296,719 | 49,060,898 | |
| Library books | 637,040 | 651,756 | - | - | 637,040 | 651,756 | |
| _ | | | | | | | |
| Total capital assets\$ | 236,604,415 \$ | 237,442,079 \$ | 27,493,298 \$ | 27,046,788 \$ | 264,097,713 \$ | 264,488,867 | |

Additional information on the City's capital assets can be found in Note 5 on pages 57-59 of this report.

Long-Term Debt

At the end of the current fiscal year, total bonded debt and unamortized premiums outstanding was \$96,976,379, which is backed by the full faith and credit of the City, and is summarized as follows:

| | Governmental Activities | | Business-Ty | pe Activities | Total | | |
|---|-------------------------|---------------|--------------|----------------------------|----------------------------|----------------------------|--|
| _ | 2014 | 2013 | 2014 | 2013 | 2014 | 2013 | |
| General obligation bonds \$ MWRA notes | 73,794,122 \$ | 77,098,769 \$ | 16,578,247 S | \$ 17,727,499 4,595,344 | \$ 90,372,369 3,812,488 | \$ 94,826,268 4,595,344 | |
| MWPAT notes | <u>-</u> - | <u>-</u> , | 2,791,522 | 3,043,749 | 2,791,522 | 3,043,749 | |
| Total bonds and notes and unamortized premiums \$ | 73,794,122 \$ | 77,098,769 \$ | 23,182,257 | \$ 25,366,592 | \$ 96,976,379 | \$ 102,465,361 | |

The City's total bonded debt decreased \$5,488,983 (or 5.4%) during the fiscal year. The City issued \$5,082,218 in general obligation bonds and MWRA notes during the fiscal year.

The City received an AA+ bond rating from Standard & Poor's for the general obligation bonds issued on June 10, 2014.

Additional information on the City's long-term debt can be found in Note 10 on pages 62-67 of this report.

Economic Factors and Next Year's Budgets and Rates

Waltham is one of the primary economic engines of metropolitan Boston. An increase in Waltham's commercial and industrial tax base from \$2.83 billion to \$2.93 billion makes it one of the most highly valued business centers in the state. Interstate 95 passes through the western part of the City and access to the Massachusetts Turnpike is close-by. Growing industries focused on information technology, communication, education, consulting services and manufacturing have chosen to locate in Waltham. During fiscal year 2014, the estimated cost of construction resulting from the issuance of building permits totaled in excess of \$244 million. Waltham homeowners consequently enjoy a significant benefit from a relatively high tax contribution from business properties, including tax policies which shift the burden from the residential property.

The Waltham City Council approved the fiscal year 2015 operating budget totaling \$229.2 million during June 2014. This represents an \$8.7 million increase, or 4.1% from the fiscal year 2014 approved budget. Included in this budget is \$74.6 million for education, \$31.2 million for public safety, \$31.5 million for the water/sewer/rink enterprise funds, \$3.5 million for collective bargaining contingencies, \$52.5 million for employee and retiree health/pension benefits, \$10.4 million for debt service and \$200,000 towards funding the OPEB liability.

Of the \$229.2 million fiscal year 2015 operating budget, the revenues budgeted to balance it are property taxes – 70.0%, local receipts – 8.7%, state aid - 7.1% and the enterprise funds user charges – 13.8% and a one-time use of overlay surplus – 0.4%. The average owner-occupied single family home has an assessed value of \$391,300. After applying the residential exemption, the annual property tax bill for the average owner-occupied single family home is \$4,088. This represents an increase of slightly less than \$11 from fiscal year 2014.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in its finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City Auditor, City Hall, 610 Main Street, Waltham, Massachusetts 02452.

CITY OF WALTHAM, MASSACHUSETTS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE FISCAL YEAR ENDED JUNE 30, 2014 $\,$

| Net change in fund balances - total governmental funds (page 34) | \$ | 4,061,214 |
|--|-----|---|
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. These amounts represent the related activity of the current period. Capital outlays | | 11,710,679 (12,548,344) |
| Revenues in the statement of activities that do not provide current financial resources are reported as deferred inflows of resources in the statement of revenues, expenditures and changes in fund balances. Therefore, the recognition of revenue for various types of accounts receivable (i.e., real estate and personal property, motor vehicle excise, etc.) differ between the two statements. This amount represents the net change | | 891,009 |
| The issuance of long-term debt (e.g., bonds and leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any impact on net position. Also, governmental funds report the effect of premiums discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. These amounts represent the related activity of the current period. | | |
| Bond proceeds Bond maturities Amortization of bond premiums. | | (4,567,760) 7,745,398 127,009 |
| In the statement of activities, interest is accrued on outstanding long-term debt, whereas in the governmental funds interest is not reported until due. This amount represents the net change in accrued interest payable. | | (73,925) |
| Some expenses reported in the statement activities do not require the use of current financial resources and, therefore, are not reported in the governmental funds. These amounts represent the net changes: | | |
| Workers' compensation Compensated absences Net OPEB obligation | | (60,227) (1,125,660) (17,073,083) |
| Internal service funds are used by management to account for health insurance. The net activity of the internal service fund is reported with governmental activities | _ | (1,838,379) |
| Changes in net position of governmental activities (page 28) | \$_ | (12,752,069) |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General

The basic financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies are described herein.

B. Reporting Entity

The City of Waltham, Massachusetts (City) is a municipal corporation with a Mayor-Council form of government. The Mayor is elected at large for a four-year term. The City Council is comprised of fifteen members elected for two-year terms from nine election districts and six at large.

For financial reporting purposes, the basic financial statements include all funds, organizations, agencies, boards, commissions and institutions that are not legally separate from the City.

The City has also considered all potential component units for which it is financially accountable as well as other organizations for which the nature and/or significance of their relationship with the City are such that exclusion would cause the City's basic financial statements to be misleading or incomplete. As required by GAAP, these basic financial statements present the City (primary government) and its component units.

The City has included one entity as a component unit (fiduciary fund) in the reporting entity because of the significance of its operational and financial relationship with the City. Component units are entities that are legally separate from the City, but are so related that they are, in substance, the same as the City or entities providing services entirely or almost entirely for the benefit of the City.

Fiduciary Fund Component Unit

The Waltham Contributory Retirement System (System) was established to provide retirement benefits to City employees, the Waltham Housing Authority employees, and their beneficiaries. The System is governed by a five-member board comprised of the City Auditor (ex-officio), two members elected by the System's participants, one member appointed by the Mayor and one member appointed by the other board members. The System is presented using the accrual basis of accounting and is reported as a pension trust fund in the fiduciary funds financial statements.

The System did not issue a separate audited financial statement. The System issues a publicly available unaudited financial report in accordance with guidelines established by the Commonwealth of Massachusetts' (Commonwealth) Public Employee Retirement Administration Commission (PERAC). That report may be obtained by contacting the System located at 610 Main Street, Waltham, Massachusetts 02452.

C. Implementation of New Accounting Principles

For the year ending June 30, 2014, the City implemented the following pronouncements issued by the GASB:

- ➤ GASB Statement No. 65, Items Previously Reported as Assets and Liabilities
- > GASB Statement No. 66, Technical Corrections-2012-an amendment of GASB Statement No. 10 and No. 62
- > GASB Statement No. 70, Accounting and Financial Reporting for Nonexchange Financial Guarantees

The implementation of GASB Statement No. 65 established financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The implementation of GASB Statement No. 65 had no retrospective reporting impact for the City.

The implementation of GASB Statement No.'s 66 and 70 had no reporting impact for the City.

D. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements (statement of net position and the statement of activities) report information on all non-fiduciary activities of the primary government and its component units. *Governmental activities*, which are primarily supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which are primarily supported by user fees.

<u>Fund Financial Statements</u>

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and displayed in a single column.

Internal service funds and fiduciary funds are reported by fund type.

E. Measurement Focus, Basis of Accounting and Basis of Presentation

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when the liabilities are incurred. Real estate and personal property taxes are recognized as revenues in the fiscal year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of activities demonstrates the degree to which the direct expenses of a function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment.

Program revenues include the following:

- Charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment.
- Grants and contributions that are restricted to meeting the operational requirements of a specific function or segment.
- Grants and contributions that are restricted to meeting the capital requirements of a specific function or segment.

Taxes and other items not identifiable as program revenues are reported as general revenues.

Except for charges between the general fund and enterprise funds, the effect of interfund activity has been eliminated from the government-wide financial statements. Elimination of these charges would distort the direct costs and program revenues reported for the functions affected.

Fund Financial Statements

Governmental funds financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due, and certain compensated absences, claims and judgments which are recognized when the obligations are expected to be liquidated with current expendable available resources.

Real estate and personal property tax revenues are considered available if they are collected within 60-days after the end of the fiscal year. Investment income is susceptible to accrual. Other receipts and tax revenues become measurable and available when the cash is received and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria is met. Expenditure driven grants recognize revenue when the qualifying expenditures are incurred and all other grant requirements are met.

The following major governmental funds are reported:

The *General Fund* is used to account for and report all financial resources not accounted for and reported in another fund.

The *Highway Projects* fund is used to account for construction, reconstruction and improvements to roadways, streets and sidewalks. Funding is provided primarily by grants.

The *Community Development Block Grant* fund is used to account for the federal community development block grant program.

The *Community Preservation* fund is a special revenue fund used to account for the 2% local real estate tax surcharge on nonexempt property (and matching state trust fund distribution) that can be used for open space, historic resource and affordable housing purposes. Property exempt from the surcharge consists of the first \$100,000 of all residential property and also property owned by low income seniors with a low or moderate income as defined by Massachusetts Department of Revenue (DOR) guidelines. Disbursements from this fund must originate from the Community Preservation Committee and be approved by the City Council.

The *city capital projects* fund is used to account for smaller capital acquisition and construction projects. These projects will be funded through the issuance of long-term bonds and notes and other available funds.

The nonmajor governmental funds consist of other special revenue, capital projects and permanent funds that are aggregated and presented in the *nonmajor governmental funds* column on the governmental funds financial statements. The following describes the general use of these fund types:

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

Permanent funds are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs and benefit the government or its citizenry.

Proprietary funds financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting, whereby revenues are recorded when earned and expenses are recorded when the liabilities are incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The following major proprietary funds are reported:

The sewer enterprise fund is used to account for the City's sewer activities.

The water enterprise fund is used to account for the City's water activities.

The following nonmajor proprietary fund is reported:

The Veterans Memorial Rink enterprise fund is used to account for the City's rink activities.

Additionally, the following proprietary fund type is reported:

The *internal service fund* is used to account for the financing of services provided by one department to other departments or governmental units. This fund is used to account for risk financing activities related to active employees' and retirees' health insurance.

Fiduciary funds financial statements are reported using the flow of economic resources measurement focus and use the accrual basis of accounting. Fiduciary funds are used to account for assets held in a trustee capacity for others that cannot be used to support the government's programs.

The following fiduciary fund types are reported:

The *pension trust fund* is used to account for the activities of the System, which accumulates resources to provide pension benefits to eligible retirees and their beneficiaries.

The *private-purpose trust fund* is used to account for trust arrangements, other than those properly reported in the permanent fund, under which principal and investment income exclusively benefits individuals, private organizations, or other governments.

The a*gency fund* is used to account for assets held in a custodial capacity. Such assets consist of confiscated police property and security deposits. Agency funds do not present the results of operations or have a measurement focus.

F. Deposits and Investments

Government-Wide and Fund Financial Statements

Cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with an original maturity of three months or less from the date of acquisition.

Investments are carried at fair value. Fair value is based on quotations from a national securities exchange except for pooled funds, for which fair value is based on unit value reported by the funds.

Alternative Investments

Alternative investments are recorded at fair value as determined in good faith by the general partners of the venture capital firms after consideration of pertinent information, including current financial position and operating results, price-earnings multiples and available market prices of similar companies' securities, the nature of securities, marketability, restrictions on disposition and other appropriation and do not necessarily represent amounts which might ultimately be realized, since such amounts depend on future circumstances and cannot reasonably be determined until individual securities are liquidated.

Real Estate

The fair value of real estate funds is based on independent third-party appraisals. The investment managers of the funds are responsible for the reported value of those investments. However, the structure, risk profile, return potential and marketability of those investments differ from traditional equity and fixed income investments. Determination of the value of these investments involves subjective judgment because the actual market value can be determined only by negotiation between the parties to a sales transaction. As a result, the estimated values may differ significantly from the values that would have been used had a ready market for the real estate existed, and the differences could be material.

G. Accounts Receivable

Government-Wide and Fund Financial Statements

The recognition of revenue related to accounts receivable reported in the government-wide, proprietary and fiduciary funds financial statements is reported under the accrual basis of accounting. The recognition of revenue in the governmental funds financial statements is reported under the modified accrual basis of accounting.

Real Estate Taxes, Personal Property Taxes and Tax Liens

Real estate and personal property taxes are levied and based on values assessed on January 1st of every year. Assessed values are established by the Board of Assessor's for 100% of the estimated fair market value. Taxes are due on August 1st, November 1st, February 1st and May 1st and are subject to penalties and interest if they are not paid by the respective due date.

Real estate tax liens are processed six months after the close of the valuation year on delinquent properties and are recorded as receivables in the fiscal year they are processed.

Motor Vehicle Excise Taxes

Motor vehicle excise taxes are assessed annually for each vehicle registered in the City and are recorded as receivables in the fiscal year of the levy. The Commonwealth is responsible for reporting the number of vehicles registered and the fair values of those vehicles to the City. The tax calculation is the fair value of the vehicle multiplied by \$25 per \$1,000 of value.

Community Preservation Surcharges

Community preservation surcharges are levied annually at a rate of 2% of residents' real estate tax bills with exemptions for the first \$100,000 of residential property and property owned by qualified persons with low income and seniors with low or moderate income as defined by DOR guidelines. The surcharge is due with the real estate tax on a quarterly basis each August 1st, November 1st, February 1st, and May 1st and are subject to penalties and interest if they are not paid by the respective due date. Overdue surcharges are included on the tax liens processed on delinquent real estate taxes. Surcharges are recorded as receivables in the fiscal year of the levy.

Water and Sewer User Charges and Utility Liens

User fees are levied monthly based on individual meter readings and are subject to penalties and interest if they are not paid by the respective due date. Water and sewer liens are processed in December of every year and are included as a lien on the property owner's tax bill. Water and sewer charges and liens are recorded as receivables in the fiscal year of the levy.

Departmental and Other

Departmental and other receivables primarily consist of parking ticket fines and police and fire details and are recorded as receivables in the fiscal year accrued.

Special Assessments

Special assessments consist of street and sidewalk betterments and are recorded as receivables in the fiscal year accrued.

Intergovernmental

Various state and federal operating and capital grants are applied for and received annually. For non-expenditure driven grants, revenue is recognized as soon as all eligibility requirements imposed by the provider have been met. For expenditure driven grants, revenue is recognized when the qualifying expenditures are incurred and all other grant requirements are met.

Loans

The Planning/Housing Department administers loan programs that provide housing assistance to residents and capital needs for small businesses. Loans are recorded as receivables upon issuance.

H. Allowance for Uncollectible Amounts

The allowance for uncollectible amounts is estimated based on historical trends and specific account analysis for the following accounts receivable:

- Personal property taxes
- Motor vehicle and other excise taxes
- Departmental and other

The following types of accounts receivable are secured via the lien process and are considered 100% collectible. Accordingly, an allowance for uncollectible amounts is not reported.

- > Real estate taxes and tax liens
- Community preservation surcharges
- > Water and sewer user charges and liens

Special assessments

Intergovernmental receivables are considered 100% collectible.

I. Inventories

Government-Wide and Fund Financial Statements

Inventories are recorded as expenditures at the time of purchase. Such inventories are not material in total to the government-wide and fund financial statements and therefore are not reported.

J. Restricted Assets

Government-Wide and Fund Financial Statements

Assets are reported as restricted when limitations on their use change the nature of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation.

K. Capital Assets

Government-Wide and Proprietary Funds Financial Statements

Capital assets, which consist of land, construction in progress, land improvements, buildings and improvements, equipment, infrastructure (e.g., roads, water mains, sewer mains, and similar items) and library books are reported in the applicable governmental or business-type activities column of the government-wide financial statements and the proprietary funds' financial statements.

Capital assets are recorded at historical cost or at estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at the estimated fair market value at the date of donation. Construction period interest is not capitalized on constructed capital assets.

All purchases and construction costs in excess of \$10,000 are capitalized at the date of acquisition or construction, respectively, with expected useful lives of greater than one year.

Capital assets (excluding land and construction in progress) are depreciated on a straight-line basis. The estimated useful lives of capital assets are as follows:

| | Estimated |
|----------------------------|------------|
| | Useful |
| | Life |
| Capital Asset Type | (in years) |
| | |
| Land improvements | 10-50 |
| Buildings and improvements | 5-40 |
| Equipment | 3-20 |
| Infrastructure | 10-50 |
| Library books | 5 |

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized and are treated as expenses when incurred. Improvements are capitalized.

Governmental Funds Financial Statements

Capital asset costs are recorded as expenditures in the acquiring fund in the fiscal year of the purchase.

L. Interfund Receivables and Payables

During the course of its operations, transactions occur between funds that may result in amounts owed between funds.

Government-Wide Financial Statements

Transactions of a buyer/seller nature between governmental funds are eliminated from the governmental activities in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the statement of net position as "internal balances".

Fund Financial Statements

Transactions of a buyer/seller nature between funds are not eliminated from the individual fund statements. Receivables and payables resulting from these transactions are classified as "Due from other funds" or "Due to other funds" on the balance sheet.

M. Interfund Transfers

During the course of its operations, resources are permanently reallocated between funds.

Government-Wide Financial Statements

Transfers between governmental funds are eliminated from the governmental activities in the statement of activities. Any residual balances outstanding between the governmental activities and business-type activities are reported in the statement of activities as "Transfers, net".

Fund Financial Statements

Transfers between funds are not eliminated from the individual fund statements and are reported as transfers in and transfers out

N. Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time.

The City does not have items that qualify for reporting in this category.

O. Deferred Inflows of Resources

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

The government has two items that qualify for reporting in this category. Unavailable revenue is reported in the governmental funds balance sheet and taxes collected in advance is reported in both the statement of net position and governmental funds balance. Unavailable revenue represents billed receivables that do not meet the available criterion in accordance with the current financial resources measurement focus and the modified accrual basis of accounting. Taxes collected in advance represents amount collected related to the fiscal year 2015 levy.

P. Net Position and Fund Balances

Government-Wide Financial Statements and Proprietary Funds Financial Statements (Net Position)

Net position is reported as restricted when amounts are restricted by outside parties for a specific future use.

Net position has been "restricted" for the following:

"OPEB" represents amounts restricted for retiree health insurance benefits pursuant to special legislation enacted in 2002.

"Employee benefits" represents amounts restricted for health insurance benefits.

"Loans" represents amounts outstanding for community development block grant program loans receivable.

"Community preservation" represents amounts restricted for the purpose of acquiring land for conservation, recreational, and affordable housing projects.

"Permanent funds – expendable" represents amounts held in trust for which the expenses are restricted by various trust agreements.

"Permanent funds – nonexpendable" represents amounts held in trust for which only investment earnings may be expended.

"Revolving funds" represents amounts restricted for various activities that require a user charge.

"Traffic impact" represents amounts restricted for traffic improvements required by special permit.

"Parking meters" represents amounts restricted for parking meter and off-street parking lot improvements.

"Sale of lots/graves" represents restricted amounts for cemetery improvements.

"Other specific purposes" represents other restrictions placed on assets from outside parties.

Governmental Funds Financial Statements (Fund Balances)

The following fund balance classifications describe the relative strength of the spending constraints:

Nonspendable — represents amounts that cannot be spent either because they are in nonspendable form (i.e., loans receivable) or because they are legally or contractually required to be maintained intact (i.e., principal of permanent fund).

Restricted — represents amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed — represents amounts that can be used only for specific purposes imposed by a formal action (vote) of City Council, which is the highest level of decision-making authority for the City. Committed amounts may be established, modified, or rescinded only through "Council Orders" voted and approved by City Council.

Assigned — represents amounts that do not meet the criteria to be classified as restricted or committed but are intended to be used for specific purposes. Under the City's structure, only authorized assignments for non-contractual encumbrances can be made by individual department heads.

Unassigned – represents the residual fund balance for the General Fund and the negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting assigned fund balance amounts.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned and unassigned.

Encumbrance amounts have been assigned for specific purposes for which resources already have been allocated.

Q. Long-term Debt

Government-Wide and Proprietary Fund Financial Statements

Long-term debt is reported as liabilities in the government-wide and proprietary funds statements of net position. Material bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

Governmental Fund Financial Statements

The face amount of governmental funds long-term debt is reported as other financing sources when the debt is issued. Bond premiums and discounts, as well as issuance costs, are recognized in the current period. Bond premiums are reported as other financing sources and bond discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual bond proceeds received, are reported as general government expenditures.

R. Investment Income

Excluding the permanent funds, investment income derived from major and nonmajor governmental funds is legally assigned to the general fund unless otherwise directed by Massachusetts General Law (MGL).

Investment income from permanent, proprietary and fiduciary funds is retained by the respective funds.

S. Compensated Absences

Employees are granted vacation and sick leave in varying amounts based on collective bargaining agreements, state laws and executive policies.

Government-Wide and Proprietary Fund Financial Statements

Vested or accumulated vacation and sick leave are reported as liabilities and expensed as incurred.

Governmental Fund Financial Statements

Vested or accumulated vacation and sick leave, which will be liquidated with expendable available financial resources, are reported as expenditures and fund liabilities upon employee retirements and resignations.

T. Post Retirement Benefits

Government-Wide and Fund Financial Statements

In addition to providing pension benefits, and as more fully described in Note 11, the City provides health, dental and life insurance coverage for current and future retirees and their spouses.

U. Use of Estimates

Government-Wide and Fund Financial Statements

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure for contingent assets and liabilities at the date of the basic financial statements and the reported amounts of the revenues and expenditures/expenses during the fiscal year. Actual results could vary from estimates that were used.

V. Total Column

Government-Wide Financial Statements

The total column presented on the government-wide financial statements represents consolidated financial information.

Fund Financial Statements

The total column presented on the fund financial statements is presented only to facilitate financial analysis. Data in this column is not the equivalent of consolidated financial information.

NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

Within 170 days after the annual organization of the City government (which is ordinarily in early January), the Mayor is required to submit a budget of proposed expenditures for the fiscal year beginning on the next July 1. The City Council may make appropriations for the recommended purposes and may reduce or reject any item. Without a recommendation of the Mayor, the Council may not make any appropriation for a purpose not included in the proposed budget, except by a two-thirds vote in the case of the failure of the Mayor to recommend an appropriation for such a purpose within 7 days after a request from the Council. The Council may not increase any item without the recommendation of the Mayor (except as provided by legislation, recommendation of the school committee or regional district school committee and by two-thirds vote of the Council, provided that such increase does not cause the total annual budget to exceed the property tax limitations). If the Council fails to act on any item of the proposed budget within 45 days, that item takes effect.

City department heads are generally required to submit their budget requests to the Mayor by the end of February. This does not apply to the school department, which must submit its request in time for the Mayor to include them in the submission to the Council.

If the Mayor does not make a timely budget submission, provision is made for preparation of a budget by the Council. Provision is also made for supplementary appropriations upon recommendation of the Mayor. Water and Sewer Department expenditures are included in the budgets adopted by City Council.

The majority of appropriations are non-continuing which lapse at the end of each fiscal year. Others are continuing appropriations for which the governing body has authorized that an unspent balance from a prior fiscal year be carried forward and made available for spending in the current fiscal year.

Generally, expenditures may not exceed the level of spending (personnel, general, equipment/unusual, capital improvement and special) authorized for an appropriation account. However, the City is statutorily required to pay debt service and certain other obligations, regardless of whether such amounts are appropriated.

An annual budget is adopted for the general fund and community preservation fund in conformity with the guidelines described above. The original fiscal year 2014 approved budget for the general fund authorized \$195,218,498 in appropriations and other amounts to be raised. During fiscal year 2014, supplemental appropriations and transfers totaling \$4,624,282 were authorized. The original fiscal year 2014 approved budget for the community preservation fund authorized \$125,000 in appropriations. During fiscal year 2014, supplemental appropriations totaling \$3,424,250 were authorized.

The Auditor's office has the responsibility to ensure that budgetary control is maintained. Budgetary control is exercised through the accounting system.

B. Fund Deficits

At June 30, 2014, the following governmental fund deficits exist:

| Fund | Amount | Funding Source |
|----------------------------------|-----------|----------------------------------|
| | | |
| Highway Projects Major Fund \$ | 670,691 | State grant |
| Police and Fire Detail | 487,366 | User charges and available funds |
| City Capital Projects Major Fund | 130,878 | Issuance of long-term debt |
| CDBG Block Grant Major Fund | 75,856 | Federal grant |
| Vocational School Reserve | 6,103 | User charges and available funds |
| City Federal Grants | 1,624 | Federal grant |
| | | |
| Total\$ | 1,372,518 | |
| | | |

C. Excess of Expenditures of Appropriations

For the fiscal year ended June 30, 2014, expenditures exceeded appropriations for state and county charges.

NOTE 3 - DEPOSITS AND INVESTMENTS

City (excluding the Pension Trust Fund)

The municipal finance laws of the Commonwealth authorize the City to invest temporarily idle cash in bank term deposits and certificates of deposits, and treasury and agency obligations of the United States government, with maturities of one year or less; U.S. treasury or agency repurchase agreements with maturities of not more than 90 days; money market accounts; and the state treasurer's investment pool – the Massachusetts Municipal Depository Trust (MMDT). The Treasurer also has expanded investment powers as it relates to certain trust funds (as defined by the Commonwealth), permanent funds and fiduciary funds, which permits investments in equity and other securities.

The MMDT meets the criteria of an external investment pool and operates in accordance with applicable state laws and regulations. The Treasurer of the Commonwealth serves as Trustee and provides regulatory oversight. The reported value of the pool is the same as the fair value of pool shares.

A cash and investment pool is maintained that is available for use by all funds with unrestricted cash and investments. The deposits and investments of the permanent funds, private purpose trust funds and the pension trust fund are held separately from other City funds.

Deposits - Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the City's deposits may not be recovered. The City's policy allows unlimited deposits, for up to one year, in bank accounts or CD's that are fully collateralized through a third party agreement in banking institutions that do not receive the highest bank rating as determined by a recognized bank rating firm. For banking institutions receiving the highest rating no collateralization is required. The City's policy also allows unlimited investments in money market funds, which are allowed by statute and are considered to be liquid funds.

As of June 30, 2014, \$10,717,107 of the City's bank balance of \$133,211,992 was uninsured, uncollateralized and exposed to custodial credit risk.

Investments Summary

The City's investments at June 30, 2014 are presented below. All investments are presented by investment type, with debt securities presented by maturity.

| | | _ | Investment Maturities (in Years) | | | | | | | |
|---------------------------|------------|----|----------------------------------|----|-----------|----|---------|--|--|--|
| | Fair | | Less | | | | | | | |
| Investment Type | Value | | Than 1 | | 1 - 5 | _ | 6 - 10 | | | |
| | | | | | | | | | | |
| Debt Securities: | | | | | | | | | | |
| U.S. Treasuries\$ | 1,257,290 | \$ | - | \$ | 742,489 | \$ | 514,801 | | | |
| U.S. Agencies | 2,679,384 | | 393,487 | | 1,959,019 | | 326,878 | | | |
| Corporate bonds | 684,324 | | - | | 684,324 | | - | | | |
| Municipal bonds | 97,162 | | - | | 31,037 | | 66,126 | | | |
| Money market mutual funds | 7,079,034 | | 7,079,034 | | - | | - | | | |
| External investment pools | 3,415,209 | | 3,415,209 | | - | | - | | | |
| | | | | | | | | | | |
| Total investments | 15,212,403 | \$ | 10,887,730 | \$ | 3,416,869 | \$ | 907,805 | | | |
| | | | | | | _ | | | | |
| Other Investments: | | | | | | | | | | |
| Equity securities | 1,499,153 | | | | | | | | | |
| <u> </u> | | _ | | | | | | | | |
| Total investments\$ | 16,711,556 | | | | | | | | | |
| · - | | = | | | | | | | | |

Investments - Interest Rate Risk of Debt Securities

Interest rate risk for debt securities is the risk that changes in interest rates of debt securities will adversely affect the fair value of an investment. The City's investment policy limits maturities to one year, except for the trust funds, which are not limited, as a means of managing its exposure to fair value losses arising from increasing interest rates.

The City participates in MMDT, which maintains a cash portfolio and a short-term bond fund with combined average maturities of approximately 3 months. Although MMDT is not rated, credit ratings associated with the investments of the MMDT Cash Fund were either Tier 1 (approximately 97%) or Tier 2 (approximately 3%).

Investments - Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have a policy for custodial credit risk of investments. As of June 30, 2014, the City's investments were exposed to custodial credit risk as follows:

| | | | Held by |
|-------------------|-----------|----|----------------|
| | Fair | | Counterparty's |
| Investment Type | Value | | Trust or Agent |
| | | | |

<u>Investments - Credit Risk of Debt Securities</u>

Credit risk for debt securities is the risk that an issuer or other counterparty to a debt security will not fulfill its obligations. The City's policy is to limit investments in debt securities to government agencies and government sponsored enterprises, with the exception of the trust funds, which are not limited, as means of limiting credit risk. As of June 30, 2014, the credit quality ratings of the City's debt securities are as follows:

| Investment Type | Fair Value | _ | AAA | | A | AA | BBA | Unrated |
|---------------------------|---------------|----|-----|------|------------|------------|------------|------------|
| Corporate bonds\$ | 684,324 | \$ | | - \$ | 335,746 \$ | 145,744 \$ | 202,834 \$ | _ |
| Municipal bonds | 97,162 | | | - | 66,125 | - | 31,037 | - |
| Money market mutual funds | 7,079,034 | | | - | - | - | - | 7,079,034 |
| External investment pools | 3,415,209 | | | | <u> </u> | <u> </u> | <u>-</u> | 3,415,209 |
| Total\$ | 11,275,729 | \$ | | - \$ | 401,871 \$ | 145,744 \$ | 233,871 \$ | 10,494,243 |

^{*} Per the rating scale of Standard and Poor's (a national credit rating organization)

Investments - Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City does not have a policy for concentration of credit risk. As of June 30, 2014, the City was not exposed to concentration of credit risk.

Pension Trust Fund (The System)

The System has expanded investment powers, including the ability to invest in equity securities, corporate bonds and other specified investments.

The System participates in the Pension Reserve Investment Trust (PRIT), which meets the criteria of an external investment pool and operates in accordance with applicable state laws and regulations. The Treasurer of the Commonwealth serves as Trustee and provides regulatory oversight. The reported value of the pool is the same as the fair value of the System's position in pool shares.

<u>Deposits - Custodial Credit Risk</u>

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the System's deposits may not be recovered. The System does not have a policy for custodial credit risk of deposits. As of December 31, 2013, the System is not exposed to custodial credit risk.

Investments Summary

The System's investments at December 31, 2013 are presented below. All investments are presented by investment type with debt securities presented by maturity.

| | | | Investment |
|----------------------------------|-------------|----|----------------|
| | | | Maturities (in |
| | | | Years) |
| | Fair | | Less |
| Investment Type | Value | | Than 1 |

| | _ | - | |
| Total investments\$ | 189,299,631 | | |

Investments - Interest Rate Risk of Debt Securities

Interest rate risk for debt securities is the risk that changes in interest rates of debt securities will adversely affect the fair value of an investment. The System does not have a policy for interest rate risk of debt securities.

Investments - Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The System does not have a policy for custodial credit risk. As of December 31, 2013, \$15,532,030 of the System's investments (real estate and alternative) were exposed to custodial credit risk.

Investments - Credit Risk of Debt Securities

Credit risk for debt securities is the risk that an issuer or other counterparty to a debt security will not fulfill its obligations. The System does not have a policy for credit risk of debt securities. As of December 31, 2013, the System's debt securities were unrated by a national credit rating organization.

<u>Investments - Concentration of Credit Risk</u>

Concentration of credit risk is the risk of loss attributed to the magnitude of the System's investment in a single issuer. The System does not have a policy for concentration of credit risk. As of June 30, 2014, the System was not exposed to concentration of credit risk.

NOTE 4 - ACCOUNTS RECEIVABLE

At June 30, 2014, receivables for the individual major governmental funds and nonmajor governmental, internal service, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, consist of the following:

| | | Allowance | | |
|--|------------|-------------------|------------|--|
| | Gross | for | Net | |
| _ | Amount | Uncollectibles | Amount | |
| Receivables: | | | | |
| Real estate and personal property taxes \$ | 1,565,288 | \$ - \$ | 1,565,288 | |

NOTE 8 - SHORT-TERM FINANCING

Short-term debt may be authorized and issued to fund the following:

- Current operating costs prior to the collection of revenues through issuance of revenue anticipation notes (RAN) or tax anticipation notes (TAN).
- Capital project costs and other approved expenditures incurred prior to obtaining permanent financing through issuance of bond anticipation notes (BAN) or grant anticipation notes (GAN).

Short-term loans are general obligations and carry maturity dates that are limited by statute. Interest expenditures and expenses for short-term borrowings are accounted for in the general fund and enterprise funds, respectively.

⁽²⁾ Represents budgeted transfers from the library state aid (\$35,000) and insurance recovery (\$16,967) special revenue funds to the general fund. Also represents close out of various special revenue funds to the general fund.

Details related to the short-term debt activity for the fiscal year ended June 30, 2014, is as follows:

Notes Payable - Governmental Funds

The Massachusetts Water Resource Authority (MWRA) operates financial assistance programs for community owned collection systems. Financial assistance received from the MWRA consists of non-interest bearing loans (payable in five equal annual installments) and, in some instances, grants. At June 30, 2014, the outstanding principal amount of MWRA loans in the sewer enterprise fund totaled \$670,120.

During fiscal year 2014, The City issued \$263,218 of MWPAT bonds and \$15,000 of general obligation bonds for sewer improvement projects.

The Massachusetts Water Resource Authority (MWRA) operates financial assistance programs for community owned collection systems. Financial assistance received from the MWRA consists of non-interest bearing loans (payable in five equal annual installments) and, in some instances, grants. At June 30, 2014, the outstanding principal amount of MWRA loans in the water enterprise fund totaled \$3,142,368.

During fiscal year 2014, The City issued \$236,240 of general obligation bonds for water improvement projects.

Veterans Memorial Rink Enterprise

| Project | Maturity Date | Interest Rate | | Outstanding at June 30, 2013 | | Issued | Redeemed | | Outstanding at June 30, 2014 |
|------------------------------|---------------|------------------|-----|------------------------------|----|--------|----------------|-----|------------------------------------|

| Add: unamortized premium | | | _ | 3,840 | _ | - | (1,536) | _ | 2,304 |
| Total Veterans Memorial Rink | | | \$_ | 64,840 | \$ | - | \$ (25,036) | \$_ | 39,804 |

Debt service requirements for principal and interest for the Veterans Memorial Rink enterprise fund in future fiscal years are as follows:

| Fiscal Year | _ | Principal | | Interest | | Interest | | Total |
|--------------|----|------------------|----|--------------|----|------------------|--|-------|
| 2015 2016 | \$ | 23,500 14,000 | \$ | 1,500 560 | \$ | 25,000 14,560 | | |
| Total | \$ | 37,500 | \$ | 2,060 | \$ | 39,560 | | |

The City is subject to various debt limits by statute and may issue additional general obligation debt under the normal debt limit. At June 30, 2014, the City had the following authorized and unissued debt:

| Purpose | Amount |
|-------------------------------|------------|
| | |
| Sewer\$ | 5,954,940 |
| Street & traffic improvements | 4,647,095 |
| School design/construction | 3,908,274 |
| Water | 1,896,342 |
| Building renovations | 2,113,905 |
| Planning | 943,000 |
| Technology | 79,000 |
| Land development | 51,000 |
| Police communication system | 45,220 |
| | |
| Total\$ | 19,638,776 |

NOTE 11 - OTHER POST EMPLOYMENT BENEFITS

Plan Description – The City provides health, dental and life insurance coverage for its retirees and their survivors (hereinafter referred to as the "Plan") as a single-employer defined benefit Other Post Employment Benefit (OPEB) plan. Chapter 32B of the MGL assigns authority to establish and amend benefit provisions. Changes to plan design and contribution rates must be accomplished through the collective bargaining process. The Plan does not issue a stand-alone financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plan.

The number of participants as of June 30, 2014, the latest actuarial valuation, is as follows:

| Active employees | 1,435 |
|------------------------|-------|
| Retirees and Survivors | 1,247 |
| _ | |
| Total | 2,682 |

Funding Policy - The contribution requirements of Plan members and the City are established and may be amended by the City. The required health and dental insurance (including Medicare Part B) contribution rates of Plan members and the City are between 1% and 12.5% and 99% and 87.5%, respectively, depending on the plan elected. The Plan members and the City each contribute 50% towards a \$5,000 term life insurance premium. The City currently contributes enough money to the Plan to satisfy current obligations on a pay-as-you-go basis. The costs of administering the Plan are paid by the City.

Annual OPEB Cost and Net OPEB Obligation - The City's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an actuarially determined amount that is calculated in accordance with the parameters set forth in GASB Statement #45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table identifies the components of the City's annual OPEB cost for the year, the actual amount contributed to the plan, and changes in the City's net OPEB obligation:

| | | Amount |
|---|----|--|
| Annual required contribution Interest on net OPEB obligation Adjustment to annual required contribution | \$ | 34,893,118 3,499,559 (2,916,299) |
| Annual OPEB cost | | 35,476,378 (18,122,556) |
| Increase in net OPEB obligation Net OPEB obligation at beginning of year | - | 17,353,822 87,488,981 |
| Net OPEB obligation at end of year | \$ | 104,842,803 |

Trend information regarding annual OPEB cost, the percentage of the annual OPEB cost contributed and the net OPEB obligation is as follows:

| | Annual | | Percentage | | Net |
|---------------|------------------|---|-------------|----|-------------|
| Fiscal Year | OPEB Cost | | of AOPEBC | | OPEB |
| Ending | (AOPEBC) | _ | Contributed | _ | Obligation |
| | _ | _ | _ | | _ |
| June 30, 2012 | \$ 39,383,555 | | 54.9% | \$ | 69,457,340 |
| June 30, 2013 | 40,971,815 | | 56.0% | | 87,488,981 |
| June 30, 2014 | 35,476,378 | | 51.1% | | 104,842,803 |

Funded Status and Funding Progress – The funded status of the Plan at June 30, 2014, the most recent actuarial valuation, was as follows:

| | | Actuarial | | | | |
|-----------|-----------|-----------------|----------------|--------|------------|------------|
| | | Accrued | | | | UAAL as a |
| | Actuarial | Liability (AAL) | Unfunded | | | Percentage |
| Actuarial | Value of | Projected Unit | AAL | Funded | Covered | of Covered |
| Valuation | Assets | Credit | (UAAL) | Ratio | Payroll | Payroll |
| Date | (A) | (B) | (B-A) | (A/B) | (C) | ((B-A)/C) |
| | | | | | | |
| 06/30/14 | \$ - | \$ 600,635,042 | \$ 600,635,042 | 0% \$ | 89,853,532 | 668% |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive Plan (the Plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and Plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The significant methods and assumptions as of the latest actuarial valuation are as follows:

Valuation date: June 30, 2014

Actuarial cost method: Projected Unit Credit

Amortization method: Level percentage of projected payroll

Remaining amortization period: 30 years (open)

Interest discount rate: 4.0%

Healthcare/Medical cost trend rate: 7.0% decreasing a half percent annually for 5 years to an ultimate level of

4.5% per year

Projected salary increases: 4.0%

35,476,378

Allocation of AOPEBC - AOPEBC costs were allocated to the City's functions as follows:

| Governmental Activities: | | |
|---|----|------------|
| General government | \$ | 2,119,313 |
| Public safety | | 10,697,021 |
| Education | | 19,139,312 |
| Public works | | 1,196,461 |
| Health and human services | | 414,173 |
| Culture and recreation | | 848,228 |
| Community development | | 487,955 |
| Total AOPEBC - governmental activities | - | 34,902,463 |
| Business-Type Activities: | | |
| Sewer | | 183,520 |
| Water | | 349,258 |
| Veterans Memorial Rink | | 41,137 |
| | - | |
| Total AOPEBC - business-type activities | | 573,915 |
| | | |

NOTE 12 - RISK FINANCING

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the City carries commercial insurance. In addition, the City is self-insured for damages not covered by commercial insurance. The amount of claim settlements has not exceeded insurance coverage in any of the previous three fiscal years.

The City participates in premium-based healthcare plans for its active employees and retirees, as well as being self-insured. These activities are accounted for in the City's internal service fund where revenues are recorded when earned and expenses are recorded when the liability is incurred.

The City is also self-insured for its workers' compensation and unemployment compensation activities.

Total.....

A. Health Insurance

Health insurance claims are administered by a third party administrator and are funded from the City's internal service fund. The estimate of "Incurred But Not Reported (IBNR)" claims is based on approximately one month claims paid average. The City purchases individual stop loss insurance for claims in excess of the coverage provided by the City in the amount of \$250,000 per claim. At June 30, 2014, the amount of the liability for health insurance claims totaled \$3,294,832. Changes in the reported liability since July 1, 2012, are as follows:

| | | | Current Year | | | | |
|---------------------|--------------|----|--------------|----|--------------|----|------------|
| | Balance at | | Claims and | | | | Balance at |
| | Beginning of | | Changes in | | Claims | | Fiscal |
| | Fiscal Year | _ | Estimate | _ | Payments | _ | Year-end |
| | | | | | | | |
| Fiscal year 2013 \$ | 3,496,119 | \$ | 37,236,047 | \$ | (38,045,062) | \$ | 2,687,104 |
| Fiscal year 2014 | 2,687,104 | | 42,056,752 | | (41,449,024) | | 3,294,832 |

B. Workers' Compensation

Workers' compensation claims are administered by the City and are funded on a pay-as-you-go basis from annual appropriations. The estimated future liability is based on history and injury type.

The liability at June 30, 2014, totaled \$321,218. Changes in the reported liability since July 1, 2012, are as follows:

| | | | Current Year | | | | |
|------------------|---------------|----|--------------|----|-----------|----|------------|
| | Balance at | | Claims and | | | | Balance at |
| | Beginning of | | Changes in | | Claims | | Fiscal |
| | Fiscal Year | _ | Estimate | _ | Payments | _ | Year-end |
| | | | | | | | |
| Fiscal year 2013 | \$ 330,793 | \$ | 635,715 | \$ | (687,258) | \$ | 279,250 |
| Fiscal year 2014 | 279,250 | | 692,221 | | (650,253) | | 321,218 |

NOTE 13 - FUND BALANCES

The constraints on fund balances as listed in aggregate in the Governmental Funds Balance Sheet are detailed as follows:

NOTE 14 - STABILIZATION FUNDS

The City maintains a general stabilization fund that was established under MGL Chapter 40, Section 5B. Appropriations in and out of the stabilization fund require majority City Council approval. Investment income is retained by the fund.

The balance of the general stabilization fund at June 30, 2014 totals \$1,560,819 and is reported in the general fund as unassigned fund balance.

NOTE 15 - PENSION PLAN

Plan Description – The City contributes to the System, a cost-sharing multiple-employer defined benefit pension plan administered by the Waltham Contributory Retirement System. Substantially all employees of the City are members of the System, except for public school teachers and certain administrators who are members of the Massachusetts Teachers Retirement System.

Chapter 32 of the MGL assigns authority to establish and amend benefit provisions of the plan. The System provides retirement, disability and death benefits to plan members and beneficiaries. Cost-of-living adjustments granted between 1981 and 1997 and any increases in other benefits imposed by the Commonwealth's state law during those years are borne by the Commonwealth and are deposited into the pension fund. Cost-of-living adjustments granted after 1997 must be authorized by the Waltham Contributory Retirement System and are borne by the System. The System issues a publicly available report in accordance with guidelines established by the Commonwealth's Public Employee Retirement Administration Commission. That report may be obtained by contacting the System located at 610 Main Street, Waltham, Massachusetts 02452.

Plan Membership - At December 31, 2013, the System's membership consists of the following:

| Active members | 886 |
|---|-------|
| Inactive members | 126 |
| Retirees and beneficiaries currently receiving benefits | 757 |
| | |
| Total | 1,769 |

Funding Policy – Chapter 32 of MGL governs the contributions of plan members and the City. Plan members are required to contribute to the System at rates ranging from 5% to 11% of annual covered compensation. The City is required to pay into the System its share of the system-wide actuarial determined contribution that is apportioned among the employers based on annual covered payroll.

Contributions are recognized as additions in the period when they become due pursuant to formal commitments, statutory or contractual requirements. Benefits and refunds are recognized as deductions when incurred and administrative expenses are funded through investment earnings.

Annual Pension Cost – The City's contributions to the System for the fiscal years ended June 30, 2014, 2013, and 2012 were \$14,303,117, \$13,857,860 and \$13,738,814, respectively, which equaled its annual required contribution. The current and two preceding fiscal years apportionment of the annual pension cost between the two employers required the City to contribute approximately 97% of the total. At June 30, 2014, the City did not have a net pension obligation.

Funded Status and Funding Progress – The funded status of the plan at January 1, 2013, the most recent actuarial valuation date, is as follows:

| | | Actuarial | | | | UAAL as a |
|-------------|-------------|-------------------|-------------|----------|------------|------------|
| | Actuarial | Accrued | Unfunded | | | Percentage |
| Actuarial | Value of | Liability (AAL) | AAL | Funded | Covered | of Covered |
| Valuation | Assets | Entry Age | (UAAL) | Ratio | Payroll | Payroll |
| Date | (A) | (B) | (B-A) | (A/B) | (C) | ((B-A)/C) |
| · | | | | | | |
| 01/01/13 \$ | 165,040,789 | \$ 324,109,193 \$ | 159,068,404 | 50.9% \$ | 50,696,522 | 313.8% |

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AAL for benefits.

Additional information as of the latest actuarial valuation is as follows:

Valuation date: January 1, 2013

Actuarial cost method: Entry age normal

Amortization method: Increasing payments 4.00%

Remaining amortization period: 22 years (open)

Asset valuation method: Actuarial value, 5-year smoothing

Actuarial assumptions:

Investment rate of return: 8.25%

Projected salary increases: 3.50%

Inflation rate: 3.50%

Cost of living adjustments: 3.00% of the first \$14,000 of retirement income

Legally Required Reserve Accounts - The balance in the System's legally required reserves as of December 31, 2013 are as follows:

| Description | Amount | Purpose |
|---|---|---|
| Annuity Savings Fund \$ Annuity Reserve Fund Military Service Fund Pension Reserve Fund | 58,440,654 16,635,274 2,228 96,120,374 18,128,039 | Active members' contribution balance Retired members' contribution account Military leave of absence contribution balance Amounts appropriated to fund future retirement Remaining net assets |
| - | 189,326,569 | Kemaning net assets |

NOTE 16 - MASSACHUSETTS TEACHERS RETIREMENT SYSTEM

Public school teachers and certain administrators are members of the Massachusetts Teachers Retirement System, to which the City does not contribute. Pension benefits and administrative expenses paid by the Teachers Retirement Board are the legal responsibility of the Commonwealth. The amount of these on-behalf payments totaled \$16,732,290 for the fiscal year ended June 30, 2014, and accordingly, are reported in the general fund as intergovernmental revenues and pension expenditures.

NOTE 17 - COMMITMENTS

The City has entered into, or is planning to enter into, contracts totaling approximately \$40,000,000 for equipment, street and sidewalks, buildings and facilities and water/sewer infrastructure in accordance with its five-year capital improvement plan.

Other significant commitments include the encumbrances and continuing appropriations outstanding for the general fund, which totaled \$5,554,675 at June 30, 2014.

NOTE 18 - CONTINGENCIES

Various legal actions and claims are pending against the City. Litigation is subject to many uncertainties, and the outcome of individual litigated matters is not always predictable. Although the amount of liability, if any, at June 30, 2014, cannot be ascertained, management believes any resulting liability should not materially affect the financial position of the City at June 30, 2014.

The City participates in a number of federal award programs. Although the grant programs have been audited in accordance with the provisions of the Single Audit Act Amendments of 1996 through June 30, 2014, these programs are still subject to financial and compliance audits. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

NOTE 19 - FUTURE IMPLEMENTATION OF GASB PRONOUNCEMENTS

The GASB has issued the following statements:

- > <u>Statement No. 67</u>, Financial Reporting for Pension Plans an Amendment of GASB Statement No. 25, which is required to be implemented (in the City's financial statements) during fiscal year 2015. The implementation of this Statement, among other things, expands note disclosures and required supplementary information related to the Pension Trust Fund.
- ➤ Statement No. 68, Accounting and Financial Reporting for Pensions an Amendment of GASB Statement No. 27, which is required to be implemented during fiscal year 2015. The implementation of this Statement will represent a significant change in the accounting and reporting of pension expense and the related liability. For the first time, the City will be required to recognize its long-term obligation for pension benefits as a liability and to more comprehensively measure the annual costs of pension benefits. The implementation of this Statement also expands pension related note disclosures and required supplementary information.

- ➤ <u>Statement No. 69</u>, *Government Combinations and Disposals of Government Operations*, which is required to be implemented during fiscal year 2015. Management does not believe the implementation of this Statement will impact the basic financial statements.
- Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date an amendment of GASB Statement No. 68, which is required to be implemented during fiscal year 2015. The implementation of this Statement will require the City, in the transition year of Statement No. 68, to recognize contributions to defined benefit pension plans between the measurement date of the reported net pension liability and the end of the government's reporting period as a deferred outflow of resources.

These pronouncements will be implemented by their respective implementation dates.

Nonmajor Governmental Funds

Narrative

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The special revenue funds are grouped into the following categories:

Other Special Revenue Fund – This fund is used to account for receipts reserved for appropriation.

City Federal Grants – This fund is used to account for programs specifically financed by federal grants which are designated for specific programs.

School Federal Grants – This fund is used to account for the educational programs specifically financed by federal grants which are designated for specific programs.

City State Grants Fund – This fund is used to account for programs specifically financed by state grants which are designated for specific programs.

School State Grants Fund – This fund is used to account for the educational programs specifically financed by state grants which are designated for specific programs.

Insurance Recovery Fund - This fund is used to account for insurance reimbursements.

Gifts Fund – This fund is used to account for gifts which have been accepted by the City to be used for the purpose specified by the donor.

Sale of Lots/Graves Fund – This fund is used to account for the proceeds from the sale of cemetery lots and graves for cemetery improvements.

Revenue Reserve Fund - This fund is used to account for school receipts reserved for appropriation.

School Lunch Fund – This fund is used to account for all cafeteria activities and is funded by user charges, federal and state grants and commodities received.

Parking Meters Fund - This fund is used to account for parking meter and off-street parking lot proceeds.

UDAG Nova Biomedical Fund – This fund is used to account for special programs under community development block grant guidelines.

Vocational School Reserve Fund – This fund is used to account for the proceeds from outside services provided by vocational students.

Public Safety - This fund is used to account for drug forfeiture and other law enforcement activities.

Traffic Impact Fund - This fund is used to account for traffic improvements required by special permit.

Police and Fire Detail Fund - This fund is used to account for police and fire detail activities.

Capital Projects Funds

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments. The capital projects funds are grouped into the following category:

School Capital Projects – This fund is used to account for the construction and renovation to the City's Schools. These projects will be funded through the issuance of long-term bonds and notes and other available funds.

Permanent Funds

Permanent funds are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs and benefit the government or its citizenry. The permanent funds are grouped into the following categories:

Cemetery Trust Funds – This fund is used to account for various contributions and activities associated with maintenance of the City's cemeteries.

Other Permanent Funds – This fund is used to account for various contributions associated with governmental programs.

Private Purpose Trust Funds

Narrative

The private purpose trust fund is used to account for trust arrangements, other than those properly reported in the permanent fund, under which principal and investment income exclusively benefits individuals, private organizations, or other governments.

Scholarship Trust Fund - This fund is used to account for scholarships held by the City to benefit individuals.

Housing Trust Fund - This fund is used to account for the City's rental subsidy program.

Statistical Section

Civil War Soldier's Monument

Statistical Section

This part of the City of Waltham's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Financial Trends (pages 116 - 120)

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity (pages 121 – 123)

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

Debt Capacity (pages 124 – 126)

These schedules contain information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information (pages 127 – 128)

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information (pages 129 - 131)

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

(1) Revaluation year.

Source: Assessor's Department, City of Waltham

All property in the Commonwealth of Massachusetts is assessed at 100% of fair cash value.

Note: Chapter 59, Section 21C of the Massachusetts General Laws, known as "Proposition 2 1/2", imposes 2 separate limits on the annual tax levy of the City. The primary limitation is that the tax levy cannot exceed 2 1/2 percent of the full and fair cash value. The secondary limitation is that the tax levy cannot exceed the maximum levy limit for the preceding fiscal year as determined by the State Commissioner of Revenue by more than 2 1/2 percent, subject to an exception for property added to the tax rolls and for certain substantial valuation increases other than as part of a general revaluation. The secondary limit may be exceeded in any year by a majority vote of the voters, however it cannot exceed the primary limitation.
