Waltham Recycling

A DIVISION OF THE
CONSOLIDATED PUBLIC
WORKS DEPARTMENT

Construction Material

Recycling Department

165 Lexington Street, Waltham, MA 02451

781-314-3390

Construction and Demolition Debris (C&D waste):

The Massachusetts Department of Environmental Protection (MassDEP) amended the State Waste Bans (310 CMR 19.017) to add certain construction and demolition materials (asphalt pavement, brick, concrete, drywall, metal and wood) to the list of items prohibited from disposal, transfer for disposal, or contracting for disposal on July 1, 2006. These items are no longer collected as trash and must be recycled by contracting a private hauler.

Increasing recycling and other diversions of C&D material helps support development of in-state processing businesses and preserves valuable, limited disposal capacity in the Commonwealth. MassDEP set a goal to reduce non-municipal solid waste by 88% in 2010. To reach this goal, the MassDEP proposed to increase recycling and reuse of construction and demolition debris.

For more information on the Waste Bans, visit MassDEP's website: <http://www.mass.gov/dep/recycle/solid/wastebans.htm>

What does this mean for Waltham residents?

To be in compliance with the new Waste Bans, Waltham's curbside trash collector Capitol Waste Services, will not pick up any banned materials (asphalt, brick, concrete, drywall, metal, or treated wood) To avoid residential disposal problems, have contractors working for you dispose of construction debris as part of their contract.
